ORDINANCE NO. 6

AN ORDINANCE ESTABLISHING RATES, RULES AND REGULATIONS FOR WATER SERVICE BY THE

IDYLLWILD COUNTY WATER DISTRICT

BE IT ORDAINED by the Board of Directors of the Idyllwild County Water District, Riverside County, California, as follows:

ARTICLE 1. GENERAL PROVISIONS

1. Short Title. This ordinance shall be known and may be cited as "Idyllwild County Water District Water Ordinance".

2. Words and Phrases. For the purpose of this Ordinance, all words used herein in the present tense shall include the future; all words in the plural number shall include the singular number; and all words in the singular number shall include the plural number.

3. Water System. The District will furnish a system, plant, works and undertaking used for and useful in obtaining, conserving and distributing water for public and private uses, including all parts of said system, all appurtenances to it, and lands, easements, rights in land, water rights, contract rights, franchises, and other water supply, storage and distribution facilities and equipment.

4. Separability. If any section, subsection, sentence, clause, or phrase of this ordinance is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance.

5. Pressure Conditions. All applicants for service connections or water service shall be required to accept such conditions of pressure and service as are provided by the distribution system at the location of the proposed service connection, and to hold the District harmless for any damages arising out of low pressure or high pressure conditions or interruptions in service.

6. Tampering With District Property. No one except an employee or representative of the Board shall at any time in any manner operate the curb cocks or valves (except to repair or change private plumbing), main cocks, gates or valves of the District's system; or interfere with meters or their connections, street mains or other parts of the water system.

7. Penalty for Violation. For the failure of the customer to comply with all or any part of this ordinance, and any ordinance, resolution or order fixing rates and charges of this District, a penalty for which has not hereafter been specifically fixed, the customer's service shall be discontinued and the water shall not be supplied such customer until he shall have complied with the rule or regulation, rate or charge which he has violated or, in the event that he cannot comply with said rule or regulation, until he shall have satisfied the District that in the future he will comply with all the rules and regulations established by ordinance of the District and with all rates and charges of this District. In addition thereto, he shall pay the District the sum of Five Dollars (\$5.00) for renewal of his service.

deleted  
see ord #29

8. Ruling Final. All rulings of the Board shall be final. All rulings of the General Manager shall be final unless appealed in writing to the Board within five (5) days. When appealed, the Board's ruling shall be final.

## ARTICLE 2. DEFINITIONS

25. District means Idyllwild County Water District.

26. Board means the Board of Directors of the District.

27. Water Department means the Board of Directors of the District performing functions related to the District water service, together with the Water Superintendent and Billing Clerk and other duly authorized representatives.

28. Distribution Mains mean water lines in streets, highways, alleys, and easements used for public and private fire protection and for general distribution of water.

29. Service or Service Connection means the pipeline and appurtenant facilities such as the curb stop, meter and meter box, if any, all used to extend water service from a distribution main to premises. Where services are divided at the curb or property line to serve several customers, each such branch service shall be deemed a separate service.

30. Public Fire Protection Service means the service and facilities of the entire water supply, storage and distribution system of the District, including the fire hydrants affixed thereto, and the water available for fire protection, excepting house service connections and appurtenances thereto.

31. Regular Water Service means water service and facilities rendered for normal domestic, commercial and industrial purposes on a permanent basis, and the water available therefor.

32. Temporary Water Service means water service and facilities rendered for construction work and other uses of limited duration, and the water available therefor.

33. Private Fire Protection Service means water service and facilities for building sprinkler systems, hydrants, hose reels and other facilities installed on private property for fire protection and the water available therefor.

34. Premises means a lot or parcel of real property under one ownership, except where there are well-defined boundaries or partitions such as fences, hedges or other restrictions preventing the common use of the property by the several tenants, in which case each portion shall be deemed separate premises. Apartment houses and office buildings and structures of like nature may be classified as single premises.

35. Cross-Connection means any physical connection between the piping system from the District service and that of any other water supply that is not, or cannot be, approved as safe and potable for human consumption, whereby water from the unapproved source may be forced or drawn into the District distribution mains.

36. Owner. "Owner" means the person owning the fee, or the person in whose name the legal title to the property appears, by deed duly recorded in the County Recorder's office, or the person in possession of the property or buildings under claim of, or exercising acts of

⊗  
Amended  
ord # 33  
jms. 1175

ownership over same for himself, or as executor, administrator, guardian or trustee of the owner.

37. Person. "Person" means any human being, individual, firm, company, partnership, association and private or public or municipal corporations, the United States of America, the State of California, districts and all political subdivisions, governmental agencies and mandatories thereof.

38. Cost means the cost of labor, material, transportation, supervision, engineering, and all other necessary overhead expenses.

### ARTICLE 3. NOTICES

45. Notices to Customers. Notices from the District to a customer will normally be given in writing, and either delivered or mailed to him at his last known address.

Where conditions warrant and in emergencies, the District may resort to notification either by telephone or messenger.

46. Notices from Customers. Notice from the customer to the District may be given by him or his authorized representative in writing, by mail or in person, (1) at the District's operating office, (2) to the General Manager of the District or (3) to an officer or agent duly authorized by the Board to receive notices or complaints.

### ARTICLE 4. WATER DEPARTMENT

50. Creation. A Water Department is hereby created comprising two positions, to wit: A Water Superintendent and a Billing Clerk. They shall be appointed to serve at the pleasure of the Board.

51. Water Superintendent - Duties. The Water Superintendent shall regularly inspect and maintain all physical facilities related to the District water system, to see that they are in good repair and proper working order, and to note violations of any water regulations.

52. Id. - Violation, Repairs. He shall promptly report any violation or need for major repair work to the Board. If the work required is in the nature of an emergency, he shall take whatever steps are necessary to maintain service to consumers pending action by the Board.

53. Id. - Supervision. He shall supervise all repair or construction work authorized by the Board, and perform any other duties prescribed elsewhere in this ordinance or which shall be hereafter prescribed by the Board.

54. Billing Clerk - Duties. The Billing Clerk shall compute, prepare and mail bills as hereinafter prescribed, make and deposit collections, maintain proper books of account, collect, account for, and refund deposits, do whatever else is necessary to set up and maintain an efficient and economical bookkeeping system, and perform any other duties now or hereafter prescribed by the Board.

55. Performance of Duties. The foregoing duties of Water Superintendent and Billing Clerk may be performed by existing District personnel or by an additional employee or employees.

56. Compensation. The Water Superintendent and Billing Clerk shall receive such compensation as is prescribed by the Board.

see ord # 36  
4/11/77

ARTICLE 5. APPLICATION FOR REGULAR WATER SERVICE - WHERE NO MAIN EXTENSION REQUIRED

---

75. Applications for Regular Water Service, where no main extension is required, may be made on application forms to be provided by the Water Department, or by letter giving the same information.

76. Undertaking of Applicant. Such application will signify the customer's willingness and intention to comply with this and other ordinances or regulations relating to the regular water service and to make payment therefor.

77. Payment for Previous Service. An application will not be honored unless payment in full has been made for water service previously rendered to the applicant by the District.

78. Installation of Services. Regular water services will be installed by the Water Department only to property abutting on public streets or abutting on such distribution mains as may be constructed in alleys or easements, at the convenience of the Water Department. Services installed in new subdivisions prior to the construction of streets or in advance of street improvement must be accepted by the applicant in the installed location.

79. Changes in Customer's Equipment. Customers making any material change in the size, character or extent of the equipment or operations utilizing water service, or whose change in operations results in a large increase in the use of water, shall immediately give the District written notice of the nature of the change and, if necessary, amend their application.

ARTICLE 6. APPLICATION FOR REGULAR WATER SERVICE - WHEN MAIN EXTENSION REQUIRED

---

100. General. Where an extension of the distribution mains is necessary or a substantial investment is required to furnish service, the terms and conditions of extending service will be provided by written agreement between the District and the applicant.

ARTICLE 7. SUBDIVISIONS

---

120. Application. A person desiring to provide a water system within a tract of land which he proposes to subdivide, shall make written application therefor.

121. Id. - Contents. The application shall state the number of the tract, the name of the subdivision, and its location. It shall be accompanied by two copies of the final map, and of the plans, profiles and specifications for the street work therein.

122. Investigation. Upon receiving the application, the District shall make an investigation and survey of the proposed subdivision and shall report its findings to the subdivider, including a recommendation as to the facilities required and the estimated cost of the proposed water system therefor.

123. Subdivisions, Tracts or Housing Projects - Deposit. If the facilities are to be installed by the District, the subdivider will be required to deposit with the District the District's estimated cost of the system within the subdivision. Fire hydrants shall be so located that each lot is within 600 feet of a hydrant.

If the subdivider prefers to cause the facilities to be installed himself, he shall enter into an agreement with the District to install the facilities and provide a bond for the faithful performance thereof, with sureties satisfactory to the District.

124. Specifications and Construction. The size, type and quality of materials and location of the lines shall be specified by the Water Department and the actual construction will be done by the Water Department or by a contractor acceptable to it, supervised and inspected by an authorized representative of the District.

125. Adjustment. If the estimated cost has been deposited with the District under Section 123, adjustments of any substantial difference between the estimated and actual cost shall be made after the completion of the installation, and any excess shall be refunded to the person who made the deposit and any shortage will be paid by him to the District.

126. Property of District. All facilities shall be the property of the District.

127. Connections. The subdivider shall, at his cost, provide all connections to houses constructed by him, as herein provided.

ARTICLE 8. GENERAL USE REGULATIONS

150. Number of Services per Premises. The applicant may apply for as many services as may be reasonably required for his premises provided that the pipe line system from each service be independent of the others and that they not be interconnected.

151. Supply to Separate Premises. Not more than one premises shall be serviced from each service connection.

152. Water Waste. No customer shall knowingly permit leaks or waste of water. Where water is wastefully or negligently used on a customer's premises, seriously affecting the general service, the District may discontinue the service if such conditions are not corrected within five days after giving the customer written notice.

153. Responsibility for Equipment on Customer Premises. All facilities installed by the District on private property for the purpose of rendering water service shall remain the property of the District and may be maintained, repaired or replaced by the Water Department without consent or interference of the owner or occupant of the property. The property owner shall use reasonable care in the protection of the facilities. No payment shall be made for placing or maintaining said facilities on private property.

154. Damage to Water System Facilities. The customer shall be liable for any damage to the District-owned customer water service facilities when such damage is from causes originating on the premises by an act of the customer or his tenants, agents, employees, contractors, licensees or permittees, including the breaking or destruction of locks by the customer or others on or near a meter, and any damage to a meter that may result from hot water or steam from a boiler or heater on the customer's premises. The District shall be reimbursed by the customer for any such damage promptly on presentation of a bill.

155. Control Valve on the Customer Property. The customer shall provide a valve on his side of the service installation as close as is practicable to the meter location, street, highway, alley or easement

*Amended  
and #  
29*

in which the water main serving the customer's property is located, to control the flow of water to all the piping on his premises. The customer shall not use the service curb stop to turn water on and off for his convenience.

156. Cross-connections. The customer must comply with the State and Federal laws governing the separation of dual water systems or installations of back flow protective devices to protect the public water supply from the danger of cross-connections. Back flow protective devices must be installed as near the service as possible and shall be open to test and inspection by the Water Department. Plans for installation of back flow protective devices must be approved by the Water Department prior to installation.

In special circumstances, when the customer is engaged in the handling of especially dangerous or corrosive liquids or industrial or process waters, the District may require the customer to eliminate certain plumbing or piping connections as an additional precaution and as a protection to the back flow preventive devices.

As a protection to the customer's plumbing system, a suitable pressure relief valve must be installed and maintained by him, at his expense, when check valves or other protective devices are used. The relief valve shall be installed between the check valves and the water heater.

Whenever back flow protection has been found necessary on a water supply line entering a customer's premises, then any and all water supply lines from the District's mains entering such premises, buildings or structures shall be protected by an approved back flow device, regardless of the use of the additional water supply lines.

The double check valve or other approved back flow protection devices may be inspected and tested periodically for water tightness by the District. The devices shall be serviced, overhauled, or replaced whenever they are found defective and all costs of repair and maintenance shall be borne by the customer.

The service of water to any premises may be immediately discontinued by the District if any defect is found in the check valve installation or other protective devices, or if it is found that dangerous unprotected cross-connections exist. Service will not be restored until such defects are corrected.

157. Interruptions in Service. The District shall not be liable for damage which may result from an interruption in service from a cause beyond the control of the Water Department. When necessary, temporary shutdowns may be made by the Water Department to make improvements and repairs. Whenever possible and as time permits all customers affected will be notified prior to making such shutdowns. The District will not be liable for interruption, shortage or insufficiency of supply, or for any loss or damage occasioned thereby, if caused by accident, act of God, fire, strikes, riots, war or any other cause not within its control.

158. Ingress and Egress. Representatives from the Water Department shall have the right of ingress and egress to the customer premises at reasonable hours for any purpose reasonably connected with the furnishing of water service.

*Amended Ord #29*

ARTICLE 9. SERVICE CONNECTIONS AND METERS

170. Service Connections. The District will furnish and install a service of such size and at such location as the applicant requests, provided such requests are reasonable; the service will be installed from the water distribution main to the curb line or property line of the premises which may abut on the street, on other thoroughfares, or on the District right-of-way or easement. Charges for new services are payable in advance and shall be as follows:

<u>Size of Service</u>	<u>Metered Service Charge</u>
5/8-inch	\$ 45.00
3/4-inch	\$ 50.00
1-inch	75.00
1- $\frac{1}{2}$ -inch	110.00
2-inch	150.00

For services larger than two (2) inches the applicant will be billed for the actual cost of installation.

Only duly authorized employees or agents of the District will be permitted to install a service connection from the District's main to the customer's premises.

The service connection, whether located on public or private property, is the property of the District, unless specifically otherwise provided, and the District reserves the right to repair, replace and maintain it, as well as to remove it upon discontinuance of service.

171. Meter Installations. All services may be metered. Meters will be installed at the curb or at the property line, and shall be owned by the District and installed and removed at its expense. No rent or other charge will be paid by the District for a meter or other facilities, including housing and connections, located on a customer's premises. All meters will be sealed by the District at the time of installation, and no seal shall be altered or broken except by one of its authorized employees or agents.

172. Change in Location of Meters. Meters moved for the convenience of the customer will be relocated at the customer's expense. Meters moved to protect the District's property will be moved at its expense.

173. Meter Reading. Meters will be read periodically throughout the year.

174. Meter Tests - Deposit. All meters will be tested prior to installation and no meter will be installed which registers more than two per cent (2%) fast. If a customer desires to have the meter serving his premises tested, he shall first deposit Two Dollars (\$2.00) for meters up to one inch (1") in size and Five Dollars (\$5.00) for meters larger than one inch (1") in size and shall be present when the meter is tested in the meter shop of the Water Department. Should the meter register more than two per cent (2%) fast, the deposit will be refunded but should the meter register less than two per cent (2%) fast, the deposit may be retained by the Water Department.

175. Adjustment for Meter Errors - Fast Meters. If a meter tested at the request of a customer pursuant to Section 174 is found to be more than two per cent (2%) fast, the excess charges for the time service was rendered the customer requesting the test, or for a period of six months, whichever shall be the lesser, shall be refunded to the customer.

*Amended  
Ord #  
22  
Ord #  
37*

176. Adjustment for Meter Errors - Slow Meters. If a meter tested at the request of a customer pursuant to Section 174 is found to be more than twenty-five per cent (25%) slow in the case of domestic services, or more than five per cent (5%) slow for other than domestic services, the District may bill the customer for the amount of the undercharge based upon corrected meter readings for the period, not exceeding six months, that the meter was in use.

177. Non-registering Meters. If a meter is found to be not registering, the charges for service shall be at the minimum monthly rate or based on the estimated consumption, whichever is greater. Such estimates shall be made from previous consumption for a comparable period or by such other method as is determined by the Water Department and its decision shall be final.

#### ARTICLE 10. CREDIT

200. Establishment. Each applicant for service shall establish credit by paying the amount of the annual minimum charge, prorated as of the date service is provided, before service will be rendered.

#### ARTICLE 11. BILLING

225. Billing Period. Flat rate service shall be billed annually or at the time of installation of service. Billing based on metered service shall be periodic, at the discretion of the Water Department.

#### ARTICLE 12. DISCONTINUANCE OF SERVICE

250. Disconnection for Non-Payment. Service may be discontinued for non-payment of bills on or before the twentieth day of the month following the month during which the bill was sent. At least five (5) days prior to such discontinuance the customer will be sent a final notice informing him that discontinuance will be enforced if payment is not made within the time specified in said notice. The failure of the District to send or any such person to receive said notice shall not affect the District's power hereunder. A customer's water service may be discontinued if water service furnished at a previous location is not paid for within the time herein fixed for the payment of bills. If a customer receives water service at more than one location and the bill for service at any one location is not paid within the time provided for payment, water service at all locations may be turned off. Domestic service, however, will not be turned off for nonpayment of bills for other classes of service.

251. Reconnection Charge. A reconnection charge of Two Dollars (\$2.00) plus penalties will be made and collected prior to renewing service following a discontinuance.

252. Unsafe Apparatus. Water service may be refused or discontinued to any premises where apparatus or appliances are in use which might endanger or disturb the service to other customers.

253. Cross-Connections. Water service may be refused or discontinued to any premises where there exists a cross-connection in violation of State or Federal laws.

254. Fraud or Abuse. Service may be discontinued if necessary to protect the District against fraud or abuse.

255. Non-compliance with Regulations. Service may be discontinued for non-compliance with this or any other ordinance or regulation related to the water service.

ARTICLE 13. COLLECTION BY SUIT

275. Penalty. Rates and charges which are not paid on or before the twentieth day of the month following the month during which the bill was sent, shall be subject to a penalty of ten per cent (10%) and thereafter shall be subject to a further penalty of two per cent (2%) per month on the first day of each month following.

276. Suit. All unpaid rates and charges and penalties herein provided may be collected by suit.

277. Costs. Defendant shall pay all costs of suit in any judgment rendered in favor of District.

ARTICLE 14. PUBLIC FIRE PROTECTION

300. Use of Fire Hydrants. Fire hydrants are for use by the District or by organized fire protection agencies pursuant to contract with the District. Other parties desiring to use fire hydrants for any purpose must first obtain written permission from the Water Department prior to use and shall operate the hydrant in accordance with instructions issued by the Water Department. Unauthorized use of hydrants will be prosecuted according to law.

301. Hydrant Rental. A charge to be determined by contract between the District and organized fire protection agencies, will be imposed for hydrant maintenance and water used for public fire protection.

302. Moving of Fire Hydrants. When a fire hydrant has been installed in the location specified by the proper authority, the District has fulfilled its obligation. If a property owner or other party desires a change in the size, type or location of the hydrant, he shall bear all costs of such changes, without refund. Any change in the location of a fire hydrant must be approved by the proper authority.

ARTICLE 15. PRIVATE FIRE PROTECTION SERVICE

325. Payment of Cost. The applicant for private fire protection service not now installed shall pay the total actual cost of installation of the service from the distribution main to the customer's premises including the cost of a detector check meter or other suitable and equivalent device, valve and meter box, said installation to become the property of the District.

326. No Connection to Other system. There shall be no connections between this fire protection system and any other water distribution system on the premises.

327. Use. There shall be no water used through the fire protection service except to extinguish accidental fires and for testing the fire fighting equipment.

328. Meter Rates. Any consumption recorded on the meter will be charged for at double the regular service rates except that no charge

See Ord. # 37  
11/8/77

See Ord # 37

See Ord # 37

will be made for water used to extinguish accidental fires where such fires have been reported to the duly authorized fire protection agency.

329. Rates. The rates for private fire protection may be established and revised by resolution of the Board.

330. Water for Fire Storage Tanks. Occasionally water may be obtained from a private fire service for filling a tank connected with the fire service, but only if written permission is secured from the District in advance and an approved means of measurement is available. The regular water rates will be applied.

331. Violation of Agreement. If water is used from a private fire service in violation of the agreement or of these regulations, the District may, at its option, discontinue and remove the service.

332. Water Pressure and Supply. The District assumes no responsibility for loss or damage due to lack of water or pressure and merely agrees to furnish such quantities and pressures as are available in its general distribution system. The service is subject to shutdowns and variations required by the operation of the system.

#### ARTICLE 16. TEMPORARY SERVICE

350. Duration of Service. Temporary service connections shall be disconnected and terminated within six months after installation unless an extension of time is granted in writing by the District.

351. Deposit. The applicant shall deposit, in advance, the estimated cost of installing and removing the facilities required to furnish said service exclusive of the cost of salvageable material. Upon discontinuance of service, the actual cost shall be determined and an adjustment made as an additional charge, refund or credit. If service is supplied through a fire hydrant, the applicant will be charged in accordance with the rate schedule to be hereafter established and revised by resolution of the Board.

352. Installation and Operation. All facilities for temporary service to the customer connection shall be made by the Water Department and shall be operated in accordance with its instructions.

353. Responsibility for Meters and Installation. The customer shall use all possible care to prevent damage to the meter or to any other loaned facilities of the District which are involved in furnishing the temporary service from the time they are installed until they are removed, or until 48 hours' notice in writing has been given to the District that the contractor or other person is through with the meter or meters and the installation. If the meter or other facilities are damaged, the cost of making repairs shall be paid by the customer.

354. Temporary Service from a Fire Hydrant. If temporary service is supplied through a fire hydrant, a permit for the use of the hydrant shall be obtained from the proper authority and the District. It is specifically prohibited to operate the valve of any fire hydrant other than by the use of a spanner wrench designed for this purpose.

355. Unauthorized Use of Hydrants. Tampering with any fire hydrant for the unauthorized use of water therefrom, or for any other purpose, is a misdemeanor, punishable by law.

356. Rates. The rates for regular service shall be increased by fifty per cent (50%) for temporary service. The minimum charge for water shall be Five Dollars (\$5.00).

357. Credit. The applicant shall pay the estimated cost of service in advance or shall be otherwise required to establish credit.

ARTICLE 17. GENERAL PROVISIONS

375. Pools and Tanks. When an abnormally large quantity of water is desired for filling a swimming pool or for other purposes, arrangements must be made with the District prior to taking such water.

Permission to take water in unusual quantities will be given only if it can be safely delivered through the District's facilities and if other consumers are not inconvenienced thereby.

376. Responsibility for Equipment. The customer shall, at his own risk and expense, furnish, install and keep in good and safe condition all equipment that may be required for receiving, controlling, applying and utilizing water, and the District shall not be responsible for any loss or damage caused by the improper installation of such equipment, or the negligence or wrongful act of the customer or of any of his tenants, agents, employees, contractors, licensees or permittees in installing, maintaining, operating or interfering with such equipment. The District shall not be responsible for damage to property caused by faucets, valves and other equipment that are open when water is turned on at the meter, either originally or when turned on after a temporary shutdown.

ARTICLE 18. RATES

400. Rate Schedule. Rates for water service are hereby established as follows:

(1) GENERAL METERED SERVICE

<u>Rates</u>	<u>Per Meter Per Year</u>
<u>Annual Quantity Charge:</u>	
First 3,000 cubic feet, or less	\$30.00
Next 5,000 cubic feet, per 100 cubic feet	.30 <sup>40</sup>
Next 6,000 cubic feet, per 100 cubic feet	.15 <sup>25</sup>
Over 14,000 cubic feet, per 100 cubic feet	.10 <sup>20</sup>
<u>Annual Minimum Charge:</u>	
For 5/8 x 3/4-inch meter	\$30.00
For 3/4-inch meter	36.00
For 1-inch meter	45.00
For 1-1/2-inch meter	60.00
For 2-inch meter	84.00

The annual Minimum Charge will entitle the consumer to the quantity of water which that annual minimum charge will purchase at the annual Quantity Rates.

(2) FLAT RATE SERVICE

<u>Rates</u>	<u>Per Unit Per Year</u>
1. For each residence, building, dwelling, boarding house, apartment, or cabin of six rooms or less	\$30.00
2. For stores, shops and offices	30.00

(2) Flat Rate Service Continued

Rates

	<u>Per Unit</u> <u>Per Year</u>
3. For auto courts or camps:	
Apartments or rooms with running water	\$ 7.50
Public toilets	7.50
Public bathtubs or showers	7.50
4. For construction use:	
Minimum per water connection	<u>Per Job</u> 1.00
For mass concrete, stone work plastering, brick or other work using lime or cement, per sack of cement or barrel of lime	.25
For settling backfill in pipe or sewer trenches, 100 feet	1.00

*see ord # 37 11/8/57*

(3) PUBLIC FIRE HYDRANT SERVICE

Rates

	<u>Per Hydrant</u> <u>Per Year</u>
For 1½-inch single outlet hydrants	\$12.00
For 2½-inch single outlet hydrants	18.00
For 2½-inch double outlet hydrants	30.00

ARTICLE 19. TIME OF TAKING EFFECT

500. This Ordinance shall take effect thirty (30) days from date of adoption.

L B Brittain  
President of the Board of Directors  
of Idyllwild County Water District

ATTEST:

[Signature]  
Secretary of Idyllwild County Water  
District

\* \* \* \* \*
